

CHAMI Meriem

Software Developer | Data Scientist

Graduated with a Master's degree in Artificial Intelligence, with 3 years of freelance experience and over 10 satisfied clients. Independent, and fully committed to each project, I aim to deliver high quality work while continuously learning.

Work experience

Web Developer

Signature Consulting, 02/2026 – Present

Oran, Algeria

- Maintained and improved web applications (Next.js...), including API integration, new feature development, and bug fixes, collaborating within a team using GitHub.
- Managed VPS hosting and containerized applications with Docker for deployment, configuration, performance optimization, and security.

Software developer

Freelancer (Fiverr & other), 07/2023 – Present

Oran, Algeria

- Developed responsive web applications with React.js, Next.js, Tailwind CSS, and WordPress, including UI prototypes and API/database integration.
- Developed management and business software using WinDev, including data handling and custom user interfaces.
- Managed client communication, gathering requirements, presenting progress, and delivering solutions.

Computer Vision Intern

Satellite Development Center (CDS), 04/2025 – 05/2025

Oran, Algeria

- Created and annotated a high-resolution satellite image dataset for semantic segmentation.
- Trained and evaluated deep learning models (U-Net, U-Net++, Swin U-Net) for pixel-wise classification of geospatial features.
- Developed an end-to-end segmentation pipeline and gained hands-on experience with remote sensing data and image annotation tools.
